

Renewed NPO Funding for South East Dance

South East Dance is extremely pleased to be awarded renewed funding as an Arts Council, England National Portfolio Organisation (NPO) the period 2018 -2022. This funding secures our work with artists and communities over the next four years and allows us to continue creating opportunities to connect people of all backgrounds and ages to the huge benefits of dance both locally and further afield.

Jamie Watton, CEO/Artistic Director, South East Dance says:

“We recognise the ever challenging and shifting funding landscape that affects all arts organisations and, as such, are hugely grateful to Arts Council, England for their continuing support and confidence in the work we do. South East Dance is an ambitious and effective organisation that actively seeks to positively impact the lives of artists, participants and audiences. We think this is vital work and are very pleased to be facing a secure and exciting future as a result of our renewed NPO status.”
